PROFILE

Frontend-Focused Fullstack Developer with hands-on experience in building modern, interactive, and responsive web applications using React.js, Next.js, and Tailwind CSS. Proven ability to develop end-to-end systems and integrate scalable backend services using Node.js, PHP, and Laravel. Experienced in integrating AI solutions, including LLM-based features for real-time analysis and intelligent user interactions. Passionate about writing clean, maintainable code, optimizing application performance, and delivering high-quality user experiences (UI/UX).

SKILLS

Frontend: React.js, Next.js, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS, Redux

Backend: Node.js, Express.js, PHP, Laravel, REST APIs

Database: MySQL, PostgreSQL, Supabase

AI & Tools: LLM Integration, IndoBERT, Gemini, Git, GitHub, Vercel

EXPERIENCE & PROJECTS

Fullstack & AI Developer CekAja - AI Credibility Platform	Apr 2026 – Present
- Developed an AI-powered platform for multi-format information credibility analysis (text, URLs, images, and videos), enabling real-time evaluation and automated classification - Designed and implemented end-to-end system architecture using Next.js, FastAPI, PostgreSQL, and Redis for scalable and efficient data processing - Built AI pipelines leveraging IndoBERT, Gemini, and LLMs for classification and Explainable AI (XAI), improving transparency of model predictions - Developed RESTful APIs and implemented real-time analysis using Server-Sent Events (SSE) to enhance user experience - Optimized system performance through caching strategies and multi-provider AI fallback, improving response reliability and reducing latency	
Fullstack Developer E-Learning Platform (LMS)	Jan 2026 - Mar 2026
- Developed a multi-role Learning Management System (Admin, Teacher, Student) using Laravel and MySQL to manage courses and user activities - Implemented core features including course management, assignment submission, and progress tracking to support structured learning workflows - Designed responsive and user-friendly interfaces, improving accessibility across devices - Built reporting features with Excel/CSV export to support academic data analysis and monitoring	
Fullstack Developer MoodKamu-AI	Aug 2024 – Dec 2025
- Developed a web application integrating LLM-based AI to analyze user input and generate real-time, context-aware responses - Integrated frontend with AI APIs to enable seamless and responsive user interactions - Designed and developed interactive UI using React.js and Next.js, enhancing overall user engagement	
Fullstack Developer School Information System	May 2025 – Jul 2025
- Developed a web-based school information system using React.js and Node.js to manage academic and administrative data - Built responsive user interfaces and managed cloud-based database using Supabase for efficient data handling - Implemented chatbot functionality to improve user interaction and provide automated assistance	

Front-End Dev | E-commerce QuickCart

Nov 2024 – Jan 2025

- Developed and maintained user-friendly website interfaces to enhance overall user experience
- Integrated and displayed real-time product data from APIs, ensuring up-to-date and dynamic content
- Optimized website navigation and performance to improve loading speed and usability
- Contributed to enhancing UX through improved layout structure and interaction design

TRAINING & CERTIFICATIONS

Junior Web Developer – BNSP (Badan Nasional Sertifikasi Profesi)

Cisco Networking Academy – Introduction to Data Science

Dicoding: Web Development, JavaScript, SQL, AI

Udemy: JavaScript, REST API, Web Development

Microsoft & Alibaba Cloud: AI Fundamentals

Digital Talent Scholarship: Generative AI & AI Implementation, Alibaba Cloud Model Studio (Qwen)

EDUCATION

Universitas Teknokrat Indonesia

Sep 2023 – Present

Bachelor of Informatics Engineering | GPA: 3.85 / 4.00

ACHIEVEMENTS

- 1st Place – Computer Vision Expo, Universitas Teknokrat Indonesia (2026)
- 1st Place – Mobile Programming Expo, Universitas Teknokrat Indonesia (2026)
- 2nd Place – Multimedia Expo, Universitas Teknokrat Indonesia (2026)

KEY STRENGTHS

- AI Integration (LLM, NLP, XAI)
- Fullstack Web Development (React, Next.js, Laravel)
- System Design & Performance Optimization
